

## THIS MAN'S SICKNESS

Quickly Cured To Lydia E. Pinkham's Vegetable Compound.

Balti Md. — "I am more than glad to tell Lydia E. Pinkham's Vegetable Compound did for me. I suffered dreadful pains and was very irregular. I became alarmed and sent for Lydia E. Pinkham's Vegetable Compound. I took it regularly until I was without a cramp or pain and felt like another person, and it has been six months since I took any medicine at all. I hope my little note assist you in helping other women, now feel perfectly well and in the way of health." — Mrs. AUGUST W. JENNER, 1632 Hollins Street, Baltimore.

L. E. Pinkham's Vegetable Compound made from native roots and herbs contains no narcotic or harmful drugs. To-day holds the record of being the most successful remedy for female ailments, and thousands of happy testimonials on file in the Pink Laboratory at Lynn, Mass., prove this fact.

Thirty years it has been the standard remedy for female ailments, and has restored health to thousands of women who have been troubled with such ailments as displacements, inflammation, ulcers, tumors, irregularities, etc.

You want special advice write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Medical Director Glenn E. Jackson, secretary S. W. Robley of the department are planning to take a athletic team to Maui the latter part of this month for the purpose of giving exhibitions in games and athletics. Mr. Robley will go in place to make the necessary arrangements, while Mr. Jackson will follow the team a few days later.

Save time, strength and expense by using a modern Electric Iron — the Westinghouse. Perfect heat distribution — great durability — high efficiency.

## FORD COMPANY MAKES CUT IN PRICE OF CARS

Reduction is \$60 Per Car With \$40 or \$60 More If 300,000 Are Sold

Commencing August 1 the Ford Motor Company announced a substantial reduction in the price of Ford cars. This reduction, coming on top of the already low price of these machines, makes the announcement of more than usual interest to the public, marking as it does a still further step in the plans of the Ford Company to get the cost of their cars down to such a point that every man that owns a horse and buggy can afford to drive a Ford car.

Increased production is given as the reason for the present reduction in Ford machines. The reduction amounts to \$60 on both the touring car and roadster type and brings these machines down to a remarkably low price. The announcement of the reduction also states that it is the plan of the company to build 300,000 cars during the year from August, 1914, to August, 1915, and if this mark is reached each retail purchaser of a Ford car during that period will get a further refund of from \$40 to \$60.

The actual reduction announced today and the prospective reduction during the year will result in the big Ford factory turning out these famous cars at the minimum cost and will bring the actual first cost of these cars down below that of a first-class horse and buggy. The possibilities of the future of the motor car industry when such low priced machines can be placed on the market by a company such as the Ford are hard to estimate, but that there will be a ready market for these vehicles and as many more as the factory can turn out is assured.

The Ford Company has not only set a pace for manufacturing automobiles in quantities, but they have also maintained a record-breaking pace of setting low prices. It is expected that the announcement of the present lower prices of these cars will result in the greatest demand for this type of motor-driven vehicle ever experienced in the automobile industry.

## PROMOTERS CANCEL WORK ON CARNIVAL

Acting in accordance with a resolution submitted by the board of directors of the Mid-Pacific Carnival, presented and adopted at a meeting yesterday afternoon, the members of the committee voted to return to the various bidders their tenders for printing the 1915 Carnival posters, mailing cards, postal cards and stickers. The resolution was based on action taken by the carnival directors to the effect that celebration plans cease indefinitely in view of the present unsettled condition in Europe.

One and all, the promotionists expressed their dismay at the action of the carnival directors. It was the consensus of opinion of the members of the committee that now, if ever, the carnival project should be put through and not allowed to lag. It was argued that the traveling public of the United States, unable to go to Europe for the summer, could be induced to come to Hawaii in larger numbers than ever before.

"If our country does not become involved in this war the Promotion Committee favors going on with the plans already so well begun," stated Chairman Emil A. Berndt. "Caution is commendable, but with the extreme probability of the United States being drawn into this fight or being directly or indirectly implicated the Promotion Committee is a unit in favor of proceeding. We must have our Carnival."

## RESERVIST PICKED UP BY THE POLICE

Declaring himself a German naval reservist, Gustaf Batterman, a sailor in the Kosmos line freighter Setos, which has been riding at anchor off quarantine pending a settlement of hostilities between Great Britain and Germany, was gathered in by the police today. He had escaped from the vessel and was found asleep near a dredger moored at Pier No. 18.

Batterman was taken to central police station where he was found to possess a considerable sum of money. He signified his desire to return to the fatherland there to serve his country. Batterman insists that he is ready to leave the islands in the first available transportation. He has been held at the station pending a decision from the German consul.

All members of Company D, N. G. H., who are participating in the trophy shoot now being conducted by that organization are requested to meet at the armory not later than 7 o'clock tomorrow morning. Those present will leave for the Kakaako butts at that time.

## Lost Cow Hide--And Tail--14 Years Ago; Demands Reparation

A dry cow-hide with a tail, purloined from under a house at Hilo 14 years ago has resulted in the president of the United States, the secretary of state and the governor of Hawaii being put on the defensive. While the man who demands the return of his cow-hide with the tail on it does not accuse President Wilson, or Secretary Bryan or Governor Pinkham of stealing it, he does take the position that as this is a paternal sort of government, these officials should be obliged to turn up the cow-hide for him, being at the head of public affairs.

The cow-hide with the tail was missing one morning—just 14 years ago—and after thinking it over for a little more than a decade, the owner decided to call upon the president of the United States to either return the hide or pay him damages for its loss. So he wrote to President Wilson. He

explained how the hide was under the house when he went to bed one night, and how it was gone when he got up next morning. He felt the loss doubly acute because the hide had a tail on it.

President Wilson is presumed to have read the letter. In the course of time it drifted to the state department, and from there to Governor Pinkham. It is before him now. What is he going to do about it? Quite often letters somewhat similar reach the governor. Occasionally they have been originally addressed to the president, and then forwarded to the governor. He has one other such letter now. It is addressed to the president, and complains that there are too many school books required here and too many changes in the books used. There is a personal appeal in the letter to stop this asserted extra expense.

## KIDNAPING CASE BROUGHT TO ATTENTION OF U. S. ATTORNEY

A case of kidnaping, the first of its kind to come to light in several years, may be called to the attention of the federal authorities. Assistant District Attorney J. W. Thompson may be asked to issue a warrant for the detention of the offending parties. The clerks and officials in the federal building are up in arms because—

The federal mascot, a timid young cat, still in her teens, has been stolen; kidnaped, it is believed.

The discovery was made this morning. Suspicion became aroused when she did not appear at the usual time for her breakfast of sardines and tinned milk. A hasty search of every nook and cranny of the federal building failed to reveal her whereabouts. She was not in the stenographer's office; Marshal Harry Holt confessed he had not seen her since yesterday

afternoon. Bailiff Sidney Smith doesn't know where she is.

The mascot was a much-loved pet, and had grown sleek and fat under the care of the janitors. Every employee in the federal building has joined in the search, and everyone is threatening dire vengeance on the person or persons—if any—who have made away with the feline.

Only one light thus far has been thrown on the mystery, which may serve to clear it up and insure the cat's safe return. That is, that the mascot, learning that the court has suspended business until Monday morning, has taken advantage of the opportunity and has gone visiting. Action, therefore, has been postponed until Monday. In the interim, cat-hunting will be a favorite pastime around the federal building.

## FEDERAL WIRELESS MAY ACCEPT CODE MESSAGES, SAYS DANIELS

The Federal Telegraph Company today issued the following notice:

"By special permission of Secretary Daniels the Federal Telegraph Company is permitted to accept code and cipher messages to the United States and Canada. Same are, however, subject to government censorship. Following is Secretary Daniels' message: 'Commandant Honolulu instructed that restrictions as to code radiograms apply to radio communication with ship and shore stations

of belligerent nations but that censor has authority to require translation of all code and cipher radiograms at any station.

(Signed) Daniels, Secretary of U. S. Navy."

"This means the code messages may be sent to the United States and Canada over Federal Telegraph Company's lines, but senders must be prepared to submit translations of such messages should government censorship be instituted."

"FEDERAL TELEGRAPH CO."

## CHINA CALLS ON U. S. TO AID IN PRESERVING PEACE IN EAST

(Special cable to the Nippon Jiji.)

TOKIO, Japan, August 8.—An unofficial but authentic report received here today from Peking, the Chinese capital, is to the effect that President Yuan Shih-Kai, fearing that the Republic may be converted into an actual seat of conflict through engagements between the German forces at Eisingtau and, Rishih, French, Russian and Japanese detachments stationed in China, has sent an appeal to the United States through Dr. Paul Samuel Reinsch, American minister to China, requesting that nation to render such assistance as might tend to preserve peace in the Far East.

That Minister Reinsch gave his personal consent to the appeal by the Chinese government is apparent in the report, which further states that the American minister already has forwarded to Washington, D. C., recommendations that American troops now stationed in the Chinese interior and along the coast immediately should be reinforced at this critical moment. It eagerly is being watched in diplomatic circles here just how the United States contemplates treating the appeal, especially as President Wilson has proclaimed America's strict neutrality.

## BANDMASTER CARVALHO PERSISTENT IN APPEAL TO COUNTY FOR FUNDS

(Special Star-Bulletin Correspondence)

HILO, Aug. 7.—Bandmaster Carvalho betrays a fine and admirable persistence. Though the supervisors firmly refused his appeals month after month for the old ensemble for the Hilo band, and finally cut off the music appropriation entirely last month, the payments to cease after August 1, the band is still practicing and the question of its payment is again before the board. A petition signed by at least 100 "citizens and taxpayers" is before the board this month, asking that the county income heretofore enjoyed by the musicians be restored to them. The petition was referred to the finance committee. What the band will get remains to be seen.

## ARMSTRONG MAKING HARD FIGHT, SAYS COAST PAPER

An interesting point in international law will be raised in the extradition of William P. Armstrong, in jail in San Francisco, and wanted in the Territory of Hawaii for embezzlement. Smith is accused of confiscating three \$1000 bonds belonging to Honolulu lodge, No. 800, Loyal Order of Moose, says the Sacramento (Cal.) Union of July 28. The bonds were of the Olia Sugar Company.

Armstrong will fight the requisition of the territorial agent of Hawaii, received by the governor yesterday, alleging that the constitution of the United States provides only for the extradition of prisoners between states and nations, omitting territories. Congress, in recent legislation, has included territories in matters of extradition, but Armstrong claims the organic law will prevail. Should such a condition prevail Ha-

## EUROPEAN BEET SUGAR INDUSTRY TO BE HARD HIT

(Continued from page one)

peaceful security may be threatened at any time. To use the words of the imperial chancellor: "A conflagration over the whole of Europe—a war involving many nations—is still within the range of possibility."

"These war clouds have materially influenced the labor market and may well give us food for thought with regard to the future of the beet sugar industry."

"If at a given moment war should break out, involving central and eastern Europe, we must take it for granted that all wage-earners now flocking to our fields from Austria and Russia will be forcibly kept at home, thereby inflicting a tremendous injury to our sugar beet industry. The question is, what can we do about it?"

"Some time ago this question was discussed in Berlin and many came to the conclusion that in case of war, during the time it lasted, our sugar industry would stagnate or remain entirely idle."

"If such a contingency should arise, if it is thought that such a thing might happen, then it is our duty to calmly picture to ourselves the calamitous consequences of such an occurrence and to think out what sort of a remedy to apply."

"The vast number of men and women that cross and recross annually our frontiers is greater than the migration of people we read about in history, people who came, saw, conquered and settled down, but here we have hundreds of thousands who come here to work, don't settle down, carry off over 100,000,000 marks annually and may be never to return."

"We may safely estimate that 800,000 to 850,000 people, male and female, cross our frontiers to find work here, and two-thirds come from the east—that is to say, from Austria, Poland, Russia, and one-third from other states. There are Poles, Italians, Ruthenians, Dutch and Belgians, Germans from Austria-Hungary, Danes, Swedes, Norwegians and others."

"We have become entirely dependent on foreign countries for the supply of labor on our farms and in industrial centers. Should Russia or Austria require the help of these people at any time, and prevent them from crossing the frontier, or recall them from Germany, this would be the greatest calamity that could befall our central and east German agricultural districts."

Truman G. Palmer, secretary of the United States beet sugar industry and a noted statistical expert, estimates that in the event of a European war the price of sugar might rise to from 10 to 20 cents per pound.

## ANOTHER RECORD WITH POULSEN WIRELESS

What is said to be another wireless record was established this morning by the Poulsen equipment on the cruiser West Virginia. The cruiser reported her position to the Federal Wireless station here at 11:30 o'clock this morning. Honolulu time, the vessel being at latitude 32.29 north and longitude 137.35 west, 1290 miles from this port. Smooth seas and clear weather are reported. This distance is said to constitute a new wireless record under the circumstances.

Charles Bunnel, aged 85, was married to Miss Caroline Smith, aged 61, of Bristol, Conn.
